What's Huron?

Huron is a disclosure system that is used to centralize <u>Financial Conflicts of Interest</u> (previously in Maestro), <u>Conflict of Commitment disclosures</u>, and <u>Faculty Consulting and External Employment</u> approval requests.

 A few things to note:

1) <u>Pre-Approval Request</u>: this process is used to meet the requirements of <u>System Regulations 31.05.01 and 31.05.02</u>.
2) <u>COI Disclosure</u>: this now includes financial conflicts of interest (for investigators only), as well as conflict of commitment and federal requirement questions.

The **Disclosure Profile** is the focal point of the Huron system for the discloser. It provides a summary of discloser's interest and everything that was disclosed previously.

As a discloser, you need to record your interests and outside activities in Huron system. You will receive an e-mail notification when you need to submit/update your COI disclosure. You can either click the link in the e-mail notification or go to your Disclosure Profile in the Huron application to complete and submit your disclosure.
